Fall Engagements — Are You Ready?

122669 Shown on page 15

Bridal purchases are year round — keep your assortments fresh. The following pages feature top bridal design trends — vintage-inspired, accented, universal fit, stackable, and textured, followed by best-selling styles and platinum.

Say goodbye to “I really like that but . . .” Many of these rings have the unique flexibility of online customization through 3C designs. This lets you change the design to meet a customer’s specifications.

They can choose the stone shape and size, then select from 13 metal qualities. Each of these styles offers more than 1,000 variations.

We’ve included bands: trend-setting, diamond, and classic styles.

Are you ready? You certainly are, and we can prove it.

“What do bridal customers want? They want their own special look, and this brochure presents many exciting options: major design trends, classics with on-trend twists, bands that mix and match with the engagement rings, and stackable bands that offer so many options. With these styles, you can help customers achieve the look they’ll love to wear for years to come.”

Luscious Details

Details make these design trends distinctive. Note the richness of vintage-inspired styles with milgrain, embellishments, and hand engraving. Consider two-tone accented designs with sculptured galleries and bands with subtle side details. Stackable anniversary bands work beautifully together or in various combinations. And textured styles express romantic sophistication. We have a feeling some of these striking trends will become tomorrow’s classics.

Platinum

Platinum sets the standard for beauty in bridal rings. This pure, natural white metal holds diamonds very securely, and it holds details with equal strength. A popular choice for men's wedding bands, it's also ideal for classic solitaires and elegantly designed anniversary and eternity bands.

Vow to Be Unique

Ever&Ever™ gives you an edge in the competitive bridal market. The entire program provides the easiest ways to customize bridal, one that gives customers complete on-the-spot participation. And for less than the cost of the average engagement ring, you can sell hundreds of styles. Now that's unique.

Our Branding Proposal *Two Ways to Make Your Mark*

FOIL STAMPING

The hot foil stamping process uses heated metal plates or dies to forcefully impress your name or logo onto your packaging choice. The metallic mark stands out, inviting the hand to brush and feel.

DIGITAL IMPRINTING

For an attractive, economical ink solution, we offer 4-color digital printing and doesn't require a plate. Cured and polymerized with UV light, digitally printed insignia resist flaking and fading.

Look for these badge in our new catalog. Visit Stuller.com/CustomImprinting for a complete listing of all we can offer you.

Watch for *Packaging, Displays and Watchbands 2017*, your new catalog, arriving soon. We put a badge next to all products that can be custom imprinted.
